

Release 1 - PRDV0.3 (Mini)- MVP 1 - initial

1. Release 1 - Figma Jam Board

In release 1 figma jam board there is all the illustration listed below including the mapping form page to page in clearer which is listed in the scenarios and flows below.

You will find only what is related to release one and everything else is removed to another board or being hidden.

Also you will find color code glossary which gives a meaning to the colors used in illustration in the map in the scenarios and flows as shown below.

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=993-4258&t=YIEzDd0MpPTdVYZA-4>

To preview all visual components, scenarios, flows, and wireframes all in one space please visit our figma jam board.

If you don't have access please reach out to your point of contact and send your email to be added to the board.

2. Requirements & Features

To be able to see the scenarios and flows chart clearly, hover over the chart then click on the expand button, or the open in browser button.

2.1 User Scenarios & Flows

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=993-4145&t=DPEvfZSclwVwHyZi-4>

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=993-4400&t=iNOgpFgBSXDFX1Vp-4>

2.2 List of Requirements

1. Registration:

- Login.
- Signup.
- User Profile Information Post Registration From.

2. Asset Store.

3. Asset Details.

4. Access Request Details Form Popup.

5. Access Request License and Terms Confirmation Popup Carousel.

6. Content and Utilization Standards Page.
7. Publisher's Public Profile page.
8. License Page.

Login Page

Login Page Wireframe

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=1037-3487&t=WR2NcBKzqkYwdmOT-4>

If the login by Github or Gmail is for the very first time the user has to go through the following form that asks him about his main information regarding the business type, mode, and team.

User Story

As a developer wanting to access the Developer Platform,
I want to log in using multiple authentication methods,
So that I can access the platform using my preferred login credentials.

Acceptance Criteria:

1. Login Page Header:

- Page displays the title "Login to Developer Platform"

2. Social Login Options:

- Red button with Google logo labeled "تسجيل الدخول بجوجل" (Login with Google)
- Dark button with GitHub logo labeled "تسجيل الدخول بجيت هب" (Login with GitHub)

3. Email/Password Login Form:

- Email input field with placeholder text "البريد الإلكتروني" (Email)
- Password input field with placeholder text "كلمة المرور" (Password)
- Blue login button labeled "تسجيل الدخول" (Login)

4. Registration Link:

- Text stating "ليس لديك حساب؟" (Don't have an account?)
- Clickable "تسجيل" (Register) link for new user registration

5. Registration Developer Profile Form:

- a. What is your business model? Are going to make it paid? Which pricing model?
 - b. What is the size of your team?
 - c. Tell us more about yourself so that the publisher gets to know you more.
- If the user chose to login using Github or Gmail he will be directed to another form to fulfill the information. ⇒ The only difference between this page and the signup page is that he will not be asked to enter his email.
 - When the user log in by gmail we should fetch his first and last name as prefilled data then we give him the chance to adjust or change them.

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=1037-3725&t=WR2NcBKzqkYwdmOT-4>

Sign Up Page

Signup Page Wireframe

This page looks identical to the previous one but actual it has one more attribute needs to be filled by the user which is the email address.

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=1037-3094&t=WR2NcBKzqkYwdmOT-4>

User Story

As a new user wanting to access the Developer Platform,
I want to create an account by providing my personal and professional information,
So that I can register and gain access to the platform.

Acceptance Criteria:

1. Registration Page Header:

- Page displays the title "إنشاء حساب" (Create Account)

2. Registration Form Fields:

- First name
- Second Name
- "المسمى الوظيفي" (Title) input field with placeholder text "Software Engineer"
- "رقم الهاتف" (Phone Number) input field with placeholder text "0965000000000"
- "عنوان البريد الإلكتروني" (Email Address) input field with placeholder text "you@example.com"
- "كلمة المرور" (Password) input field with placeholder text "*****"

3. Sign Up Action:

- Blue button labeled "التسجيل" (Sign Up)

4. Login Redirect:

- Text stating "هل لديك حساب بالفعل؟" (Already have an account?)
- Clickable "تسجيل الدخول" (Log In) link for existing users

User Profile Information Post Registration From

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=1041-2346&t=WR2NcBKzqkYwdmOT-4>

User Story

As a community developer,
I need to show the community members and publisher some more details about myself,
So that they get to know me and about what I am doing, right after my registration.

Acceptance Criteria

- Make sure that the user fulfills this right after the registration.
- Make sure that if the session has been dropped, when he login back again or revisit the website he should fill it before he start using the website, but at that time it has to be skippable.
- Make sure that if he skipped it that it appears to him every now and then that he needs to fulfill his profile basic information so that he can have access to resources, by the time he starts to click on any of the resources cards at the store.
- **Project Information Section:**
 - Question header: ما الذي تعمل عليه؟ أخبرنا عن مشروعك؟ (What are you working on? Tell us about your project?)

- Text input field with placeholder: الإجابة على سؤال نوع نموذج الأعمال (Answer to the business model type question)
- **Project Link Section:**
 - Label: أضف رابط المشروع إذا توفر (Add project link if available)
 - Text input field with placeholder: الإجابة على سؤال حجم الفريق؟ (Answer to the team size question?)
- **Personal Information Section:**
 - Instruction text: أخبرنا المزيد عن نفسك وحجم فريقك حتى يتعرف عليك المجتمع بشكل أفضل (Tell us more about yourself and your team size so the community can get to know you better)
 - Large text area with placeholder: الإجابة على طلب التعريف بالذات (Answer to the self-introduction request)
- **Registration Completion:**
 - Dark button labeled: الترخين والإستمرار (Save and Continue)
- **Form Layout:**
 - All form elements are contained within a bordered container
 - Form fields are properly spaced and organized vertically
 - Text areas accommodate longer responses for detailed information

Asset Store

[Assets Store Page Wireframes Before Logging](#)

[Assets Store Page Wireframe After Logging](#)

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=1037-2757&t=WR2NcBKzqkYwdmOT-4>

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=1037-2248&t=WR2NcBKzqkYwdmOT-4>

User Story

As a user searching for resources,
I want to use a global search functionality with Creative Commons license filtering,
So that I can find relevant resources with specific licensing requirements.

The search functionality is going to be global, but for now we are not going to include it in all pages until we design complex nav components and get consensus regarding it.

Acceptance Criteria:

1. Search Interface:

- There is a global search bar labeled "البحث" (Search) at the top of the page

2. Resource Display:

- Search results are displayed as resource cards
- Each resource card contains exactly three pieces of information:
 - عنوان المصدر (Resource Title)
 - شرح مختصر (Brief Description)
 - الرخصة (License)
 - اسم الناشر (Publisher Name)

3. Category Filter Panel:

- a. Make sure that the user can filter using various types of categories:
 - i. Translation.

- ii. Transliteration.
- iii. Quran Corpra.
- iv. Quran Audio.
- v. Quran Illustration/Font.

4. License Filter Panel:

- A Creative Commons license filter panel is available on the right side
- The panel is titled "رخصة الموارد (Creative Commons)" (Resource License - Creative Commons)
- The following license options are available with checkboxes:
 - مفتوح بالكامل (Fully Open) - with green indicator
 - CC0/ Public Domain - with checkbox
 - إسناد (Attribution) - with green indicator
 - CC BY - with checkbox
 - إسناد ومشاركة بالمثل (Attribution ShareAlike) - with yellow indicator
 - CC BY-SA - with checkbox
 - إسناد بلا اشتقاق (Attribution No Derivatives) - with yellow indicator
 - CC BY-ND - with checkbox
 - إسناد واستخدام غير تجاري (Attribution Non-Commercial) - with yellow indicator
 - CC BY-NC - with checkbox
 - إسناد غير تجاري، مشاركة بالمثل (Attribution Non-Commercial ShareAlike) - with red indicator
 - CC BY-NC-SA - with checkbox
 - إسناد غير تجاري بلا اشتقاق (Attribution Non-Commercial No Derivatives) - with red indicator
 - CC BY-NC-ND - with checkbox

Make sure that there is a pagination feature.

License are not actually licenses instead these are labels that is going to be assigned to the resources. Meaning that the licenses are labels only in the first release. Also we are going to have only one type among those in which if the used that one proper filter he will find all resources and if he used any other filter he will not find any.

Asset Details

Resource Details Page Wireframe

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=1037-3528&t=WR2NcBKzqkYwdmOT-4>

User Story

As a community developer,
I want to review and explore resource details,
So that I can publish resources with complete information and metadata.

Acceptance Criteria:

1. Navigation Header:

- Top navigation contains: الرئيسية (Main), الأكاديمية (Academy), المشروعات (Projects), التقارير (Reports), معرض الأصول والموارد (Assets and Resources Gallery)
- User greeting displays "مرحباً محمد" (Welcome Mohammad) with "M" avatar

- Red تسجيل الخروج (Logout) button
- Notification bell icon

2. Breadcrumb Navigation:

- Shows "العودة إلى قائمة الوارد والوصول" (Return to Import and Assets List) with back arrow

3. Resource Form Fields:

- اسم المصدر (Resource Name - Publisher) input field
- أيقونة المصدر (Resource Icon) upload area
- الناشر (Publisher) input field
- معايير الاستخدام (Usage Standards) button
- استعراض الرخصة (License Review) button
- تحميل المصدر (Download Resource) button with download icon
- النسخة الأصلية للمورد (Original Version of Resource) with back arrow

4. Content Description:

- وصف مطول (Extended Description) large text area

5. Content Preview Section:

- Header: لقطة من المحتوى (Content Screenshot)
- Descriptive text: "كما هو مبين في اللقطة المرفقة مع النص الذي تمثل جانب" من جوانب المحتوى التي سيتم الإطلاع عليه بالكامل داخل الملف بعد القيام بالحصول على صلاحية وصول تم تنزيله"

Access Request Details Form

Access Request Details Form Wireframe

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=1037-2525&t=WR2NcBKzqkYwdmOT-4>

User Story

As a publisher of resources,
I want to receive detailed information about users requesting access to my resources,
So that I can know about the people who want to access my resource.

Acceptance Criteria:

1. Popup Trigger:

- When a user clicks the تحميل المصدر (Download Resource) button, a popup form appears

2. Access Request Form Fields:

- لماذا تريد الوصول إلى المورد؟ (Why do you want to access the resource?)
 - Field description: وصف الإجابة عن السؤال عن سبب طلب الوصول
 - Error indicator: خطأ
- ما هي القيمة المضافة لما تعمل عليه؟ (What is the added value to what you are working on?)

3. Form Action:

- الإستمرار (Continue) button to submit the access request

4. Information Transfer:

- All provided information is sent to the publisher to give them details about who is using their resource

Access Request License and Terms Confirmation Popup Carousel

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=1037-3136&t=WR2NcBKzqkYwdmOT-4>

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=1037-3284&t=WR2NcBKzqkYwdmOT-4>

[Access Request License and Terms Confirmation Carousel Wireframe](#)

Interactive Prototype: [Carousel Flow](#)

User Story

As a publisher,
I need to make sure that the developer did review and accept license terms and access grant terms through an interactive process,
So that we assure that he understood the important license aspects before agreeing to the terms or breaching them.

Acceptance Criteria:

1. Popup Display:

- A popup appears for accepting the license terms and access grant terms
- The popup is directed to the user that will hold the terms

2. Terms Review Process:

- User must scroll horizontally in a carousel format
- The carousel shows the important consequences of the terms
- User cannot proceed until completing the carousel review

3. **Accept Button Behavior:**

- The button for accepting the terms is initially inactive/disabled
- The accept button becomes active only after the user finishes scrolling through the entire carousel

4. **Completion Requirement:**

- User must complete viewing all carousel content before being able to accept the terms

Content & Utilization Standard Page

Content and Utilization Standards

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=1037-3012&t=WR2NcBKzqkYwdmOT-4>

User Story

As a community developer,
I want to access documentation that explains the standards for accessing content in files,
So that I can understand how to properly use the content according to industry introduced standards.

Acceptance Criteria:

1. **Documentation Page Header:**

- Title: الوثائق: معايير الوصول إلى البيانات (Documents: Content Access Standards)
- Subtitle: يوضح هذا المستند معايير الوصول إلى البيانات في الملفات. يرجى اتباع (This document explains standards for accessing content in files. Please follow the guidelines below for each category)

2. Verse Usage Standards Section:

- Header: معايير استخدام الآية (Verse Usage Standards)
- Description: للوصول إلى الآيات، اتبع المعايير التالية (To access verses, follow the following standards)
- Guidelines:
 - استخدم تنسيق معرف الآية الصحيح (Use correct verse identifier format)
 - تأكد من فهرسة الآية بشكل صحيح (Ensure correct verse indexing)
 - تحقق من آخر التحديثات في قاعدة بيانات الآيات (Verify latest updates in verse database)
- Example: getVerse('2:255') مثال: للوصول إلى الآية 2: 255، استخدم (Example: To access verse 2:255, use getVerse('2:255'))

3. Words Usage Standards Section:

- Header: معايير استخدام الكلمات (Words Usage Standards)
- Description: للوصول إلى الكلمات، التزم بما يلي (To access words, commit to the following)
- Guidelines:
 - استخدم مفاتيح الكلمات المحددة (Use specified word keys)
 - تأكد من تحديث قائمة الكلمات (Ensure word list is updated)
 - الحفاظ على الاتساق في تنسيق الكلمات (Maintain consistency in word formatting)
- Example: getWord("الله") مثال: لاسترجاع كلمة "الله"، استخدم (Example: To retrieve the word "الله", use getWord("الله"))

4. Tafsir Usage Standards Section:

- Header: معايير استخدام تفسير (Tafsir Usage Standards)

- Description: عند الوصول إلى تفسير، اتبع الإرشادات التالية (When accessing tafsir, follow the following guidelines)
- Guidelines:
 - استخدم مرجع تفسير الصحيح (Use correct tafsir reference)
 - تأكد من دقة الترجمات (Ensure translation accuracy)
 - تحقق من وجود تفسيرات محدثة لتفسير (Verify existence of updated interpretations for tafsir)
- Example: getTafsir ('2:255') مثال: للوصول إلى تفسير للآية 2: 255، استخدم
(Example: To access tafsir for verse 2:255, use getTafsir ('2:255'))

Publisher's Public Profile Page

Publisher's Public Profile Page Wireframe

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=1037-2401&t=WR2NcBKzqkYwdmOT-4>

User Story

As a user browsing publisher's profile,
I want to view a publisher's profile and their published resources,
So that I can learn about the publisher and access their available resources.

Please notice that there is no local search or pagination features in the publisher page particularly because firstly we don't have local search feature in the website so far, and secondly because our first assumption is that each publisher so far has only few resources.

Acceptance Criteria:

1. Navigation Header:

- Top navigation contains: الرئيسية (Main), الأكاديمية (Academy), المشروعات (Projects), التقارير (Reports), معرض الأصول والموارد (Assets and Resources Gallery)
- User greeting displays "مرحباً محمد" (Welcome Mohammad) with "M" avatar
- Red تسجيل الخروج (Logout) button
- Notification bell icon

2. Publisher Information Section:

- اسم الناشر (Publisher Name) header
- أيقونة الناشر (Publisher Icon) display area on the right
- نبذة مختصرة ومعلومات عن الناشر - معلومات عن الناشر مختصرة (Brief summary and information about the publisher - brief information about the publisher)

3. Resource Display:

- قائمة الموارد (Resources List) section header
- Grid layout displaying resource cards (5 columns x 2 rows = 10 cards total)
- Each resource card contains:
 - عنوان المصدر (Resource Title)
 - شرح مختصر (Brief Description)
 - الرخصة (License)

4. Category Filter Panel:

a. Make sure that the user can filter using various types of categories:

- i. Translation.
- ii. Transliteration.
- iii. Quran Corpra.
- iv. Quran Audio.
- v. Quran Illustration/Font.

5. License Filter Panel:

- A Creative Commons license filter panel is available on the right side
- The panel is titled "رخصة الموارد (Creative Commons)" (Resource License - Creative Commons)
- The following license options are available with checkboxes:
 - مفتوح بالكامل (Fully Open) - with green indicator
 - CC0/ Public Domain - with checkbox
 - إسناد (Attribution) - with green indicator
 - CC BY - with checkbox
 - إسناد ومشاركة بالمثل (Attribution ShareAlike) - with yellow indicator
 - CC BY-SA - with checkbox
 - إسناد بلا اشتقاق (Attribution No Derivatives) - with yellow indicator
 - CC BY-ND - with checkbox
 - إسناد واستخدام غير تجاري (Attribution Non-Commercial) - with yellow indicator
 - CC BY-NC - with checkbox
 - إسناد غير تجاري، مشاركة بالمثل (Attribution Non-Commercial ShareAlike) - with red indicator
 - CC BY-NC-SA - with checkbox
 - إسناد غير تجاري بلا اشتقاق (Attribution Non-Commercial No Derivatives) - with red indicator
 - CC BY-NC-ND - with checkbox

Async License Details Page

[Async License Details Page Wireframe](#)

<https://www.figma.com/board/5P4VhgJqD0TWnLPxEaFvdv/ITQAN-CMS-Product-Space?node-id=1037-2620&t=WR2NcBKzqkYwdmOT-4>

As a user accessing a resource, → Could be the publisher himself.

I want to view the complete license documentation for the resource,

So that I can understand all the terms and details that apply to the resource usage.

Acceptance Criteria:

1. License Page Header:

- Title: الرخصة الخاصة بالموارد: إسم المورد (The License for the Resource: Resource Name)
- Description: يوضح هذا المستند الرخصة الخاصة بالموارد والتي تشمل كل البنود والتفاصيل المذكورة أدناه (This document explains the license for the resource which includes all the terms and details mentioned below)

2. First Clause Section:

- Header: البند الأول (First Clause)
- Content includes:
 - صفة البند الأول (Description of the first clause)
 - الشروط والظروف (Terms and conditions)

- الحدث والملايسات (Events and circumstances)
- والفرق بين ذلك وذلك (And the difference between this and that)
- وعليه يجب كذا وكذا والمخالف سيعتبر ع (And therefore this and that must be done and violators will be considered...)

3. Second Clause Section:

- Header: البند الثاني (Second Clause)
- Content includes:
 - صفة البند الثاني (Description of the second clause)
 - الشرط والظروف (Terms and conditions)
 - الحدث والملايسات (Events and circumstances)
 - والفرق بين ذلك وذلك (And the difference between this and that)
 - وعليه يجب كذا وكذا والمخالف سيعتبر عليه فعل كذا وكذا (And therefore this and that must be done and violators will be considered to have done this and that)

4. Third Clause Section:

- Header: البند الثالث (Third Clause)
- Content includes:
 - صفة البند الثالث (Description of the third clause)
 - الشرط والظروف (Terms and conditions)
 - الحدث والملايسات (Events and circumstances)
 - والفرق بين ذلك وذلك (And the difference between this and that)
 - وعليه يجب كذا وكذا والمخالف سيعتبر عليه فعل كذا وكذا بمقتضى كذا (And therefore this and that must be done and violators will be considered to have done this and that according to such and such)

Release 1 - Linear Stories Navigation Guide

Authentication & Registration Stories

Core Requirements (From PRD)

ITQ-105: Login Page UI Components ★ *PRD Original*

- Login page with Google/GitHub social login and email/password form
- **Figma:** Login wireframe, design, and social login form

ITQ-108: Sign Up Page UI Components ★ *PRD Original*

- Registration page with first name, last name, title, phone, email, password
- **Figma:** Signup wireframe and design

ITQ-110: Post-Registration Profile Form UI ★ *PRD Original*

- User profile completion form with project info and personal details
- **Figma:** Profile form design

Implementation Support Stories

ITQ-106: Login Authentication Logic 🔧 *Added for Implementation*

- OAuth integration, session management, error handling

ITQ-107: First-time Social Login Flow 🔧 *Added for Implementation*

- Handle first-time social users, pre-populate data

ITQ-109: Sign Up Validation & Logic 🔧 *Added for Implementation*

- Form validation, email verification, account creation

ITQ-111: Profile Form Validation & Logic 🔧 *Added for Implementation*

- Profile form validation and data persistence

ITQ-112: Profile Completion Enforcement 🔧 *Added for Implementation*

- Enforce profile completion, handle skipping, reminders

Asset Store & Discovery Stories

Core Requirements (From PRD)

ITQ-113: Global Search Interface ★ *PRD Original*

- Global search with Creative Commons filtering, category filters, pagination
- **Figma:** Store before/after login, asset store designs

Implementation Support Stories

ITQ-114: Resource Card Components 🔧 *Added for Implementation*

- Resource cards displaying title, description, license, publisher

ITQ-115: Category & License Filter Panels 🔧 *Added for Implementation*

- Category filters (Translation, Transliteration, Quran Corpus, Audio, Illustration)
- Creative Commons license filters with color indicators

ITQ-116: Asset Store Pagination 🔧 *Added for Implementation*

- Pagination functionality for large result sets
-

Asset Details & Access Stories

Core Requirements (From PRD)

ITQ-117: Asset Details Page ★ *PRD Original*

- Resource details with navigation, form fields, content preview
- **Figma:** Resource details wireframe and design

ITQ-118: Access Request Form Popup ★ *PRD Original*

- Popup form for requesting resource access with validation
- **Figma:** Access request wireframe and form design

ITQ-119: License Terms Confirmation Carousel ★ *PRD Original*

- Interactive carousel for license terms review and acceptance
 - **Figma:** Carousel wireframe, interactive prototype, 3 slide designs
-

Documentation & Publisher Stories

Core Requirements (From PRD)

ITQ-120: Content & Utilization Standards Page ★ *PRD Original*

- Documentation page with Verse, Words, and Tafsir usage standards
- **Figma:** Standards wireframe and page design

ITQ-121: Publisher Public Profile Page ★ *PRD Original*

- Publisher profile with resources, filters, no local search/pagination
- **Figma:** Publisher profile wireframe and design

ITQ-122: License Details Page ★ *PRD Original*

- Complete license documentation with three clause sections
 - **Figma:** License details wireframe and design
-

Technical Infrastructure Stories

Implementation Support Stories

ITQ-123: Global Navigation System *Added for Implementation*

- Main navigation with authenticated/unauthenticated states
- **Figma:** Main board, user scenarios and flows

ITQ-124: Authentication API Integration *Added for Implementation*

- API integration for registration, login, profile management

ITQ-125: Resource Management API Integration *Added for Implementation*

- APIs for search, details, publisher profiles, access requests

ITQ-126: Arabic Language & RTL Support *Added for Implementation*

- RTL layout, Arabic typography, mixed content handling

ITQ-127: Security & Data Protection Implementation *Added for Implementation*

- CSRF protection, input sanitization, secure authentication
-

Story Summary

Story Breakdown:

-  **PRD Original Stories:** 10 stories (Core requirements from your documentation)
-  **Implementation Stories:** 13 stories (Added for technical implementation)
-  **Total Stories:** 23 stories

Quick Navigation:

- **Authentication:** ITQ-105 to ITQ-112 (8 stories)
- **Asset Store:** ITQ-113 to ITQ-116 (4 stories)
- **Asset Details:** ITQ-117 to ITQ-119 (3 stories)
- **Documentation:** ITQ-120 to ITQ-122 (3 stories)
- **Infrastructure:** ITQ-123 to ITQ-127 (5 stories)

Key Links:

- **Linear Project:** [Release 1 - Development](#)
 - **PRD Document:** [Release 1 PRD v0.3](#)
 - **Main Figma Board:** [Release 1 Figma Jam Board](#)
-

Usage Instructions:

1. **For Product Managers:** Use this to navigate from PRD sections to specific Linear stories
2. **For Developers:** Click Linear links to see technical implementation details and Figma designs
3. **For Designers:** Each story contains relevant Figma wireframes and design links
4. **For Project Planning:** Distinguish between core PRD requirements (★) and implementation stories (🔧)
